

Five Amigos and an old lady with some big ideas...

Published February 4, 2021 by: Wellspring

Bookending one end of my proposed remedy for our collapsed economy, and leading us through this comprehensive analysis of the state of our world on this day, January 27 as I write this - is an **Earth Update** by five of the top voices on positive Earth change who came together recently to offer up credible, concise summaries of where they see us and our world today. Each one is an impeccable *Teller of Truth*; the choice here is whether or not to heed and act upon what's being offered.

Sean Stone <https://www.seanstone.info/>

Simon Parkes <https://www.simonparkes.org/>

Charlie Ward <https://drcharlieward.com/>

Sacha Stone <https://sachastone.com/>

Robert Steele <https://robertdavidsteele.com>

Six words centered tell the story, intended to gently red-pill folks for whom this is all new information.

In six words, and then some:

Sean Stone on Patrick Byrne:

Briefing President Trump on election fraud

Sean Stone on Juan O Savin:

Don't count out Trump before April 1st

Sean Stone's own words:

The Patriot Faction – a Co-Conscious Creation

Simon Parkes:

Military in control; war is looming

Charlie Ward:

US Corporation is bankrupt; it's a charade

Sacha Stone:

Trump won; everything else is pantomime

Robert David Steele:

Government is compromised; elections are fiction

For those who may not be acquainted with Robert David Steele, this is no ordinary retired Marine. **Join Telegram** to hear his recently de-classified ten minute testimony: [DECLAS] Fmr CIA Clandestine Operations Officer co-Founder: Marine Corps Intelligence Activity - Chief Counsel Robert David Steele [ITNJ] Judicial Commission of Inquiry into Human Trafficking and Child Sex Abuse <https://t.me/TrueGreatAwakening/4402>

We could not have a more qualified and credible witness to these times than Robert David Steele and the four men he brought into this conversation. Between these five men's testimony, corroborated by the reports bookending my proposed remedy on the other end, and the snapshot of the good counsel offered by some of the great minds of our day, all of whom are pointing the way, all telling us what we must do to navigate our way through these extraordinary times.

Extraordinary times call for extraordinary measures to be taken with courage and confidence. We all need to *Monetize Our Enterprise*, and we can best do that on a wide scale with a Limbic Arc MasterMind Group in every church, small business, artist groups, schools, libraries, service organizations, loosely-held associations, sole proprietors with a client base...every form of enterprise. **We can do this.** We don't have to take all this nonsense being perpetrated upon us lying down. We can help ourselves stay standing through it all, and this is how we do it.

Essential message in 30 seconds:

Sean Stone: It's just when you look at reality and you're willing to LOOK at reality, you see that it's not what you think it is. It's not what mainstream media has told you it is. It's not what your teachers taught you in school.

...We have to keep our energy and focus on what we want to create, which is as discussed. Go back to the Republic, go back to the principles of this country, our Constitution. Go back to these rights given to us by our founding fathers, not hijacked by some 'swamp in Washington' foreign entity, a foreign corporation, basically, that it's imposed its will. So this is where we have to focus.

Simon Parkes: This is a time of choice and I say to people, you know, you choose a cup of coffee or a cup of tea and you make a choice. ...if we can get this right, and I think we will, then I think that nothing can stop humanity and its development, that we've only got good times to look forward to.

So I just have a message of Hope. Thank you.

Robert David Steele: Jon Peterson agrees with you. And he's the founder of the Arlington Institute, a noted futurist and he says we are on an upward trajectory, no matter what happens.

Charlie Ward: There are two resets in play, the New World Order's reset and Donald Trump's team reset. ...but the destination is that we're going to move from darkness into light into a new financial system of fairness.

What we're going through at the moment is a very, very dirty tunnel to get there. And we're seeing a lot of darkness. We're moving from darkness into light. We need to learn to focus on the light at the end of the tunnel rather than focusing on the shit on the walls of the tunnel. Keep your focus Straight Ahead. We'll try and guide you the best that we can, and we'll try and lead you to all the information that we can possibly find. And what I want you to do is look for yourself and make your own judgment.

Sacha Stone: The path of least resistance to the highest outcome in life is Pure Truth and Right Action - those two simple vectors in the living present, in the now.

If one engages in Pure Truth and Right Action in the living now - and living now by definition means that one is Dynamic Consciousness in action, not just being conscious. An apricot is conscious, an avocado has consciousness. I'm talking about 'Consciousness In Action', plasma projection. So when we project our plasma and we set it onto noble ideals, and then move toward the enactment, the embodiment of the manifestation of that noble expression, that is what we're purposed to do.

...But in order to do that, we need to first remove any identification with the fiction of our lives. Government is a god-damned godless fiction. Money, usury, debt, enslavement, servitude. All of that is just the issue of government...

...We need to now simply remove adherence to false light, all of those icons and wrong dreams and start to dream wisely as ***self-realized, as self-determining sons and daughters of God Almighty.***

Robert David Steele: I will end by saying that I believe that the move toward localization - what I am seeing is a rising up of the local and people who know each other and trust each other and are able to make decisions.

More and more voices are calling for a different way of doing business.

Jon Rappoport

<https://blog.nomorefakenews.com/2020/12/29/covid-open-letter-to-business-owners/>

...people have to open up the economy every which way they can.

A few bar and restaurant owners have seen the need to band together and fight the lockdowns.

As a business owner of any kind, you need to think and take action along these lines. But in a much larger way.

You need to form associations of your types of business: barber shops, salons, bars, restaurants, small grocery stores, gift shops, caterers, food trucks, inns, independent truckers...

Each type of business puts together its own association(s)...

Jon Rappoport

<https://blog.nomorefakenews.com/2020/10/01/the-covid-economy-the-plan/>

...Here, I want to focus on a near-time economic and social revolution happening before our eyes:

Through lockdowns and distancing, the massive destruction of small and medium-sized businesses. Millions of them.

The owners and workers will be forced to go where?

FROM those former businesses—which were hard to control through top-down methods—INTO the employment of major corporations, which will be picking up the economic slack and expanding.

That's the pattern.

And when a person works for one of these behemoths, he is told: "Of course, you'll either have to take the COVID vaccine or get tested every three days."

We need to build a different kind of economy that is truly a resurrection of businesses of all kinds. To escape the trap.

Entrepreneurship is vital...

...And our response to that elite, artificial method of "problem-solving": go the other way. Build, in every way possible, small businesses. Entrepreneurship.

No one said it would be easy.

Neither is liberty. Neither is freedom.

Slavery is easy. Until the consequences hit home.

"We're building our own system of slavery; that means we have the power to stop.

So what is the solution? - The solution is 1: Bring transparency to what is happening, understand where the system is going and then stop building it. you know, if you want to stop, go find something else to do like building a local fresh food system so you will have food, so stop.

2: Begin the conversation about where this is going and, more importantly, where we want to go because we're going to have to rebuild the economy bottom up if we don't want to be highly centralized.

So this puts it down to what I call it 'coming clean'. Once upon a time I was in Washington. I was writing a check on my JPMorgan Chase Private bank account. And in the meantime, I was engaged in 12 different types of litigation, litigating with the people who are trying to engineer the housing bubble - I was trying to stop the housing bubble from happening - I was writing a check on my JPMorgan Chase personal bank account, and I realized "why am I banking with a bank that is doing all this criminality, that's destroying communities with its predatory lending? I said, you know, I need to come clean. I need to stop banking there.

If tomorrow everybody woke up in America and stopped banking a JPMorgan Chase and said, you're all just criminals, we want nothing to do with you - we're out - ***and all went to a Local Credit Union or Community Bank, it would be a revolution. It would be a total Revolution!***

If 20 women turned to Big Pharma Executives and said, 'You know something, you're disgusting, no sex - Bye, I'm out the door!' It would be a total revolution.

We have the power to change this but we're all going to have to come clean because almost all of us are complicit in implementing this. It's not the devil. It's us! - The solution is for every one of us to come clean. You're either for the transhumanist slavery system or you are for a human system - ***but if you're for a human system, then you're going to have to find a way to make money, you know, and engage socially in the human system*** and stop building a transhumanist system..."

"We are working hard on figuring out the ways and means to fund the police, our peacekeeping officials, our actual land jurisdiction county sheriffs on a county-by-county basis, so that when our state assemblies hold their elections they will be able to actually hire someone and pay him instead of it being just a volunteer service that people are already doing as a volunteer -- Yes, we are working very hard toward that."

The Thick Red Line project [thickredline.org] is an effort to restore respect for law enforcement by abolishing victimless crime. We believe we have a solution that safeguards both and dramatically reduces the amount of violence in society while reducing costs to the taxpayer, dramatically reduces the prison population, and frees up the police to focus on real crime.

JUDY BYINGTON: ...U.S. MILITARY AT THE WHITE HOUSE ARRESTING CONGRESS

Date: Wednesday, 27-Jan-2021 16:30:35

www.rumormill.news/164698

US Military at the White House Arresting Congress

Special Operations (SOF) units including 4,000 deputized National Guard soldiers acting as US Marshalls, have served indictments on, or were about to arrest 67% of Congress. Early Mon. morning 25 Jan. between 3 and 6 am Military vans, buses and police cars, along with a multitude of police and Military troops, were very busy at a blacked out White House.

"I just watched everyone in the White House arrested" declared an unnamed person doing one of the two videos shown below. (Video contains graphic language) <https://youtu.be/ywfXNGNvvuU>

Mustang Medic filmed the Washington DC scene closer up:

<https://rumble.com/vdawtd-mass-arrest-at-the-capitol.html>

Even though the Mass Media have refused to report it, the US has been functioning under Martial Law since Sat. 9 Jan. An Interim Military US Government was actually running the US and they saw President Biden as a treasonous agent. A few days before Joe Biden's Inauguration and due to foreign interference in the 2020 Presidential Election, Trump had instigated the Insurgency Act, declared Martial Law and deferred his power to the US Military.

Early Mon. morning 25 Jan. between 3 and 6 am a blackout occurred in Washington DC around the White House. According to two separate videos taped at the scene, police and US troops were everywhere in the darkness. Military vans, buses and police cars pulled up to the White House, loaded passengers, took them down the road and across a bridge and then some vans came back empty to do a repeat.

Mustang Medic's recording showed many buses and vans, some marked as Military, entering the Capitol grounds. Several people were taped getting out of their cars, showing IDs to guards and then walking into the grounds.

<https://rumble.com/vdawtd-mass-arrest-at-the-capitol.html>

When it was over and seemingly on Q, fireworks lit up the sky. Reports from those on the ground claimed that by later that day the White House was closed up tight and remained so as of right now.

<https://youtu.be/ijjVRcSejWU>

Evidently Biden's team was not in the White House, but detained and arrested behind the scenes. The US Military was expected to have arrested Harris on charges of treason, while invoking the 25th Amendment on Biden because of his dementia and subsequent inability to hold office. (The Deep State had plans to invoke the 25th on Biden, put Harris in his place and Pelosi as VP. Not going to happen).

On Fri. 22 Jan. a Juan O Savin reported that the US Interim Military Government was about to arrest Joe Biden and his traitor Deep State politicians in DC. Crimes of these elite politicians have recently been exposed from findings of the Russia hoax Mueller probe, impeachments of Trump and Obamagate.

<https://www.youtube.com/watch?v=vT57EP1wL9g&feature=share>

It was reported that to date, 260 global elites have been served, "The deal that they got was that if they gave information that was useful, they could have a better death, or a jail cell for life. Obama gave up Michelle, and then breached his warrant.

<https://amg-news.com/list-of-indictments-arrests-and-executions-dismantling-the-deep-state-operatives-and-doubles-january-23-2021/>

It was likely that rolling blackouts would occur in other areas of the country as arrests were being made. Communications would be cut off for a short period of time. There's some mayors, governors and judges out there with their names on some of the over 222, 286 sealed indictments filed in federal courts across the nation since Trump took office in 2016.

On Tues. 26 Jan from about 11am EST to about 4pm EST there were massive internet and network outages on the East Coast said to be a cover for Special Operations (SOF) units making arrests of Deep State bad guys.

<https://www.cnn.com/2021/01/26/tech/verizon-fios-outage/index.html>

Soon the Emergency Broadcast System would be activated to announce all. The Military would then produce all TV programming for at least the next 72 hours, filled with videos of political elite's tribunals, accompanied by seven messages from Trump. The networks have already been informed that they could be criminally liable if they didn't allow the feed to air.

With global financial markets imploding, on Wed. 27 Jan. the worldwide Global Currency Reset was

set to take place. Sun. 31 Jan. was Freedom Day as per Trump's Executive Order signed on July 4 2020.

Last Thurs. 21 Jan. two Baghdad suicide bombers killed 32 and seriously injured dozens of others. That was reported to be Deep State Iranian/ISIS retaliation for the GCR being pushed out in Iraq and globally.

<https://www.hindustantimes.com/world-news/suicide-attack-kills-3-injures-16-in-central-baghdad-market-police-101611216986846.html>

Since Sat. 9 Jan. the US has been under an abbreviated Martial Law.

<https://operationdisclosure.blogspot.com/2021/01/sealed-indictments-as-of-december-31.html>

The ten miles of Washington DC, White House and the Capitol Building was secured with barbed wire fences and over 30,000 troops. The US Military would control all assets, taxpayer dollars, conduct a return to a gold/asset-backed dollar and insure the Republic would be restored to elements of the original Constitution as written prior to 1871.

The two governments ruling the US right now: (1) a legitimate Interim Military US Government empowered by the Constitution and the Department of Defense under Military Code 11.3, and (2) an illegal, fraudulent foreign paid-for, foreign controlled (on the foreign ground of the District of Columbia) Biden Administration.

A proposal to remedy our collapsed local economy – by Wellspring:

All indicators are pointing to our witnessing a collapse of our economy, most severely and dreadfully at the local level.

I could not have imagined a more perfect lead into my proposal than the one provided by Robert David Steele in his deft choreography of this up-to-the-minute narration of the state of our world today. All indicators are pointing to our witnessing a collapse of our economy, most severely and dreadfully at the local level. Even the most rapid implementation of some form of government relief on a national scale will take time to trickle down to the people in the towns and communities that are so debilitated and becoming even more so by the day.

It isn't enough for us to be conscious of this information. As Sacha Stone called out, "...living now by definition means that one is **Dynamic Consciousness in action**, not just being conscious."

It seems to me that all of the dilemmas people everywhere are dealing with are exacerbated by the absence of the money needed to support themselves and their work. It's a universal dilemma because everyone throughout ALL the systems in our world are stuck in that same dilemma; it's just showing up as different expressions of that same fundamental dilemma.

I am proposing on my website Icanseeclearlynow.shop that we can sidestep that whole dilemma and its accompanying devastation by forming our own local economy and transacting our business through our member-owned unincorporated credit union and by forming a network of Limbic Arc Mastermind groups that will generate an ongoing and growing revenue stream for all participants, irrespective of whatever their employment status with another corporation might or might not be.

Revenue from a business stream of income cannot be interfered with by anyone the likes of a Faustian Fauci-prescribed lockdown or government dole, or by credit scores or any other barriers to entry that keep seniors and poor people homeless and destitute from having been so neglected in the current social order. So long as you remain a subscriber, the Limbic Arc revenue stream is the gift that keeps on giving, just goes on sustaining you in whatever you're doing in your life, while at the same time giving you the benefit of having access to truly the most powerful, life-enhancing wellness technology available today.

**The Limbic Arc Quantum Energy Wellness Technology is a gift that you give yourself ...
Quantum Level Self-care**

Wellspring.limbicarc.com

When we can detach ourselves from our dependency on having the government be the sole sponsor of research and development in one way or the other, or the sole source for interim financing in one way or the other while we rebuild our businesses and climb out of this pit of economic devastation, ***we become self-reliant*** and can better look at the emerging Fauci's of the world, the corrupt politicians in government with a clearer, more discerning eye.

We do that by generating our own income in our own communities. Our local credit union will interface with whatever the monetary system is of the day, but we will be independent of the vagaries and the limitations of government-sponsored benefits - all that will be irrelevant. We are done with that. We are free of that once and for all.

More and more voices are calling for a different way of doing business. Catherine Austin Fitts concluded her recent brilliant interview with such a call. Jon Rappoport's recent publishings, the same. And there is Anna Von Reitz ready to roll with our original Republic's National Assembly and all that, that implies. Just looking for the money to roll it out and make it so.

Then there's Howard Lichtman with his fledgling Thick Red Line Project, a timely endeavor that warrants our close attention. And let's not forget the artists, the musicians, the readers of the stars, those whose self-developed skill-sets and research won't be found in any college course catalog but who provide that moral and cosmic compass to help navigate these times and the energies that are buffeting our world.

I am proposing - ***indeed have written a grant request to do a pilot study to prove my hypothesis*** - that we can use the Limbic Arc Mastermind group concept to lift up and renew our communities one soup kitchen, one homeless shelter at a time.

Here in Costa Mesa we will sponsor both **Someone Cares Soup Kitchen AND Sunset Inn** [**currently** serving as a shelter for a dozen or so seniors and disabled individuals] into their respective Limbic Arc Mastermind Groups.

In a hundred days, after undergoing our curriculum in Wellness, Self-Care, Self-Reliance and Intentional Compassionate Community, we will turn out 84 people from each organization who will have improved their situation such that they are enjoying suitable and sustainable shelter for themselves and their family, food that is nourishing and life-sustaining, being better able to take care of themselves independently, and they will be operating in the context of a community that sustains them and gives them a safe place to be and opportunities to continue to re-build their lives.

As important as all that is, each participant in our Limbic Arc Mastermind Group pilot study will also have built a level of ongoing revenue to sustain themselves going forward. They will no longer be homeless and derelict or a “public nuisance”, but they will have achieved a level of independence they had no way of achieving before.

In addition to restoring at least 168 of our most destitute residents in this community into suitable and sustainable shelter and to a new level of stability for themselves, this project alone will provide life-sustaining employment for at least 150 Costa Mesa residents – just for the first round of this project’s implementation.

And the buildings that these two organizations now occupy will undergo needed renovations and re-building as a function and output of this pilot study.
